PROJECTS

Major project: Virtual Palm pointer Mouse

- Using Palm Pointer Mouse App we can perform the operations Without using hardware mouse only using our hands.
- These devices typically incorporate hand tracking sensors or cameras to accurately track the position and movement of the user's hand.

Crud Application in php and Mysql

- A CRUD application in PHP and MySQL allows users to Create, Read, Update, and Delete records in a database. It typically involves HTML forms for input, PHP scripts to handle form submissions, and SQL queries to manipulate the MySQL database. This basic functionality can be expanded with user authentication, validation, and more advanced features for a robust web application.

Personal Portfolio Website using React

-- Built a personal portfolio website using React to highlight my projects, skills, and experiences with an engaging and interactive design. The site features reusable components, smooth animations, and a contact form with social media links, allowing easy communication with potential employers and clients. Technologies used include React, JavaScript, HTML, and CSS.

EXPERIENCE

Full Stack Development Intern

Code Insight Academy Nagpur (Brance of Zazpi Tech pvt.ltd) , Nagpur

01/2024 - present

Achievements/Tasks

- Collaborated with design teams to translate Figma designs into responsive code.
- Migrated project build system from Webpack to Vite, improving page load times by 30%.
- Developed and maintained web applications using **ReactJS, Node.js, ExpressJS and PHP**.
- Worked with RESTful APIs to fetch and display data efficiently.
- Assisted in deploying web applications on cloud servers.
